The Ship's Mail is a quarterly publication of the San Diego Sail & Power Squadron, Inc., a unit of the United States Power Squadrons, America's Boating Club®

Vol. 76, No. 1, New Year's Issue 2024

"Ahoy, Mates, wow...," as Commander Deb always began her Ships' Mail column.

# **Crossing the Bar**

It is with profound sadness and gratitude that this issue is dedicated to our recently passed Commander, Debra Ann Oberg, JN. The following obituary appeared in Legacy.com:

**Debra Ann Oberg** (nee Wanta) left this world on December 16, 2023, at the age of 59, due to complications from CREST Syndrome and Congestive Heart Failure. She was a devoted wife, mother, sister, aunt, and friend, leaving behind a legacy of love and service.

Debra is survived by her loving husband of 33 years, Peter Oberg, and their son, Luke. She is also remembered fondly by her sisters Linda Starr and Susan Sciachitano (Jay), along with numerous nieces and nephews whose lives she touched with warmth and kindness. She predeceased by her

parents, Ted and Joan Wanta.

Deb was born in Milwaukee, WI and was raised in West Bend, WI where she went to St. Frances Cabrini until 8th grade. She completed her schooling at West Bend West High School, Class of 1982, where she was a competitive cross-country runner. She graduated in 1984 from Moraine Park Technical Institute with an Associate degree in Accounting and Computer Programming prior to moving to San Diego in 1985.

She worked at Applied Micro Circuits Company for many years prior to retiring and pursuing her true passion for helping the youth in her community. While at AMCC, Debbie was able to travel to Hong Kong and Singapore, fulfilling another passion of hers to travel aboard.

"Commander Deb" joined the United States Power Squadron (USPS); America's Boating Club in 2015 and, for the last 3 years, led the San Diego Sail & Power Squadron as the Club Commander, Executive Officer, Public Relations contact. She was USPS Senior Member and successfully

completed many of the USPS/ABC course offerings including Seamanship, Piloting, Advanced Pilot, Junior Navigation, and Weather.

A passionate advocate for youth development, Debra dedicated much of her life to the Boy Scouts of America. She was an avid and active member, holding various volunteer leadership positions that showcased her commitment to fostering the growth and well-being of young individuals. Debra worked professionally for the

Boy Scouts for many years at the San Diego Imperial Council Offices, where her dedication and enthusiasm had a lasting impact on the organization and those she served. She sailed to Catalina several times with the Sea Scouts.

As well as her volunteer work with the Boy Scouts of America, Ms. Debbie, as her former students called her, was a member of St Columba Parish where she prepared hundreds of children for their 1st Holy communion for many years.

Debbie will be deeply missed by all who had the privilege of knowing her. May she rest in eternal peace, and may her legacy of compassion, service, and dedication continue to inspire us all.

In lieu of flowers, the family kindly requests that you give to a charity that supports youth development. Debra's life was a testament to the belief that investing in the future of our youth is a noble and worthwhile cause.

San Diego services will be held at St Columba Catholic Church, 3327 Glencolum Dr. on Saturday January 6th with the Viewing at 10 AM and Funeral Mass at 11am, followed by a reception at Elijah's Restaurant, 7061 Clairemont Mesa Blvd.

Wisconsin funeral services will be held on Saturday January 13<sup>th</sup>. Debbie will be laid to rest next to her mother, father, and family members.

#### Please note, regarding Commander Deb's services:

In recognition of her many years of service in with the United States Power Squadron/America's Boating Club, the SDSPS Bridge requests that <u>all</u> <u>members of the Squadron please attend</u>. Those that have Power Squadron uniforms, <u>please wear them</u>. Her scouting friends will also be in their uniforms.

Respectfully submitted,

Allan T Bombard, <u>SN</u>-CN Commander, District 28 Editor, *The Ships' Mail*

# **Electronic Navigation Course**

Date: Wednesday, Feb 28th, 2024

Time: 6:30 – 8:00 PM Wednesday for eight weeks

Place: Southwestern Yacht Club 2702 Qualtrough St, San Diego, CA 92106

Cost : \$90 member, \$110 non-member

Contact: Education Officer (seo@sdsps.org)

Electronic Navigation introduces GPS technology from the most basic receiver to chart plotter systems for navigation on board. The process of navigating by establishing waypoints and routes, and then running the planned courses, is demonstrated. Further, electronic charting software for the desktop computer is examined, with creation of waypoints and routes on the desktop and subsequent download to the on-board unit. Despite differences among the various manufacturers' offerings, a thorough discussion of the features being made available is included.

Special attention is paid to apps for tablets and smartphones that provide the electronic navigation function at the helm, for relatively little cost.

Students should be familiar with basic charting concepts.

Topic: Electronic Navigation

Time: Wednesday Feb 28th 2024 6:30 PM Pacific Time (US and Canada)

# America's Boating Channel™ Understanding Life Jacket Labels

Let's start the year by getting our life jackets ready for the 2024 boating season. If you cleaned and inspected your life jackets before storing them for winter storage, you should know how many need to be replaced. Which brings us to

our topic of life jacket labels. You may be unaware of the new labeling system if you have not purchased a life jacket recently. Type I, II, III and IV labeling was removed by the U.S. Coast Guard from the Code of Federal Regulations in 2014, but it is taking several years for the legacy designations to be phased out.

To help boaters understand the current labeling system, Season Four of America's Boating Channel offers the video "<u>Life Jacket Labels</u>" in which you are introduced to the simplified labels that contain less writing and more icons.

Regardless of your age or experience level, data shows that life jackets save lives. So don't hesitate to replace older life jackets. America's Boating Channel also produced a sequel entitled "New Label Benefits" that covers the advantages of the new life jacket labeling system. In this video, viewers learn how to interpret label icons. Also featured are tips for selecting the right life jacket for your intended on-the-water activity.

Follow the above links or visit <a href="https://www.youtube.com/@AmericasBoatingChannel">https://www.youtube.com/@AmericasBoatingChannel</a> to find these and other safe boating videos, which are an excellent tool to help recruit participants to our educational program and to membership. Invite your friends and neighbors to watch, like and subscribe to America's Boating Channel to introduce them to what our organization has to offer.

In addition to YouTube, these professionally produced high-definition safe boating and boater education videos are available via the America's Boating Channel free, on-demand app on Apple TV, Roku or FireTV. America's Boating Channel<sup>TM</sup> is produced by the United States Power Squadrons<sup>®</sup> (USPS) under a grant from the Sport Fish Restoration and Boating Trust Fund administered by the U.S. Coast Guard.
